• The United States and the then-Soviet Union agree to reduce and/or eliminate their nuclear arsenals as they enter into the Intermediate-Range Nuclear Forces Treaty. Pueblo Army Depot is assigned disassembly and elimination of the Pershing II missile.

50 0933

- 1988 The depot hosts inspectors to witness the destruction of the Pershing II missile.
 - The depot is designated for realignment by the Base Realignment and Closure Commission. All missions but one are discontinued or relocated. The depot mission becomes safely storing and securing a percentage of the nation's chemical weapons stockpile.
- 1991 Pueblo Army Depot completes its
 Intermediate-Range Nuclear Forces Treaty
 and Pershing missions.
 - The depot is at the forefront of support for Operations Desert Shield and Desert Storm, shipping a large part of contingency stocks as well as ammunition and supplies to Southwest Asia.
- 1996 The depot is renamed U.S. Army Pueblo Chemical Depot.
